## The aspect ratio of ISO paper sheets sizes

### THE TECHNICAL INFO

The aspect ratio of ISO paper sheets is 1 to 1.414 (*The square root of 2*). This gives them a unique property.

If you cut a sheet into two the resulting halves are the same proportion as the original. In other words a sheet of A4 when halved gives you two sheets of A5.

All A size papers have the same proportions.

The largest sheet in this series is A0 which is 841mm x 1189mm and just happens to be one square metre in area (*ISO paper sizes are rounded to the nearest millimetre*).
